## The world of Codes

### 2-Collecting importance of the Codes

Everyone is free to collect what they love most, in the ways they prefer and with a level of "purity" they prefer. However, it is essential to be aware of what you are buying and, for the rarest cards, it would be advisable to request a guarantee certificate that certifies its originality. In fact, the collectible value of a card with anomalous magnetism can be reduced by up to ten times compared to the full price referred to an original card with coherent internal codes.

This is how the study of internal codes is essential to know for sure whether a card has actually been activated and intended for the public, or if the codes of that card are not relevant.
